HANGERS

You've probably spotted these at exhibitions and wondered how they got up there. Give your stand huge presence by suspending a massive circle, square or triangle Hanger. The expo organisers take care of the erection for you – just ask them for a quote.

It's that time of year again. Are you ready to court new customers? We exhibit at lots of events through the year. Some big, some small. Some cost more, but attract more customers. Some cost almost nothing, yet we still meet new people.

Which events will your customers be going to this spring? A trade fair? A convention? Classic car show, music festival, vintage fete? Could you drum up new business at one of these?

The great thing about our new display range is it's totally reusable and completely modular. Mix and match depending on the space you have. Each piece is in stock and available fast, so you can take advantage of last-minute offers and exhibitor discounts.

Deciding to exhibit is one thing. Making people notice you is another. How do you make them stop?

It's our job to help you stand out. To get your message noticed. To existing buyers and to turn strangers into customers.

HOW FABRIC DISPLAYS WORK

Fabric Displays are made up of two main components — a strong, lightweight, tubular aluminium frame and a printed fabric cover.

The 260gsm 'Stretch' fabric cover is printed on both sides as standard. Designed to fit snugly over the frame, it is secured at one edge with a zip fastening. The fabric cover is changeable – additional covers can be ordered separately.

These 'next generation' displays deliver maximum impact and completely eliminate the problem of visible join lines on larger displays.

Fabric Display frames utilise a simple 'click together' mechanism.

Each part is numbered for easy identification and quick assembly.

Stretch the fabric graphic over the frame and zip up.

All Fabric Display frames are supplied with a carry bag for easy transportation and storage.
